

tour guides wanted!

Volunteers are invited to work with artist Marnie Slater to develop and perform a series of exhibition tours for SCAPE 2008 Christchurch Biennial of Art in Public Space to be held over September, October and November of this year. The tours will be centered on the works in SCAPE 2008, the wider context and history of the biennial and the city of Christchurch.

Volunteers need no previous tour guide or public speaking experience as support will be given but an interest in art would be an advantage. Tour guides will be expected to attend a series of workshops to be held in central Christchurch over July and August. During SCAPE 2008 tours will run weekly, with each guide giving a minimum of one public tour.

The SCAPE Christchurch Biennial of Art in Public Space is New Zealand's only international biennial dedicated to the exhibition of contemporary art in public space. It is organised and managed by the Art and Industry Biennial Trust.

To register your interest by the 15th of July or for more information please contact:
